

We present our 20th Course on Obstructive Sleep Apnea (OSA). During this **ENGLISH edition** of the course, we will review the endotype/phenotypes, the advantages of drug-induced sleep endoscopy (DISE), as well as major techniques for tongue and palate surgery and myofunctional and dental treatment of OSA.

Come and join us with master conferences, attend live surgery seminars and participate in cadaver-dissection workshops.

REGISTRATION: Limited to 30 participants for dissection and 70 participants for lectures and live surgery.

FEE: 1,800 € INCLUDING: lectures, surgical videos, attendance of live surgery, and participation in dissection (lab on Saturday morning).

750€ INCLUDING: lectures, workshops and live surgery.
